Top tips for learning at home

We will be sending out KIRFs homework weekly but there are lots of activities you could do at home too. When learning key recall facts it is important to do so little but often. You could practise these KIRFs while walking to school or during a car journey. You don't need to practise them all at once: perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Use practical resources – You could use many household objects to count in groups of 5. Or share into 5 groups / group objects in 5s to practice dividing.

Play games – You can play games online at topmarks.co.uk/times-tables/coconut-multiples or timestables.co.uk/
