

Mechanical Art: Igor Verniy and Alan Williams

Be the BEST you can be

Famous Figures

Igor Verniy

Verniy creates models of animals and creatures using auto parts, parts of watches, home appliances and electronics.

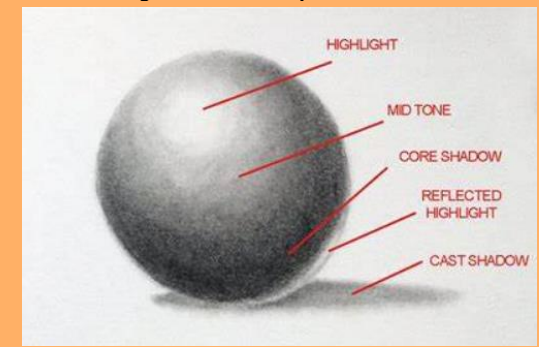

Alan Williams

Williams creates sculptures inspired by the brutal and magical forces of nature and Earth's creatures using reclaimed metal and mechanical parts in a forge.

Shading Techniques

	Key Vocabulary
Media	The different materials used to create art such as paper, paints, pencils, watercolours.
Shading	A technique used to create the illusion of depth on a 2dimensional surface
Composition	The arrangement of visual elements to create a piece of artwork.
Steampunk	A genre of science fiction that has a historical setting and typically features steam-powered machinery rather than advanced technology.

Did you know?

Mechanimals are mechanical animals - creatures made from a combination of parts. They feature heavily in the book 'Cogheart': a steampunk story.
