

# Year 1: Plants

## Key Knowledge

### A plant

A living thing that usually grows from the ground.

### Garden Plant

A flower grown especially in a garden.  
Some common garden plants to be able to recognise and name:  
Rose  
Daffodil  
Sunflower  
Tulip

### Wild Plant

A wild plant will grow by itself. It does not need to be cared for.  
Some common wild plants to be able to recognise and name:  
Daisy  
Dandelion  
Buttercup

### Deciduous Trees

Deciduous trees lose their leaves in the autumn every year. Their leaves are generally broad, flat and have veins running through them.

### Evergreen Trees

Evergreen trees have green leaves all year round. Their leaves are generally thick, waxy and narrow like needles.

### Seed

The part of a flowering plant that can develop into a new plant.

## Parts of a Plant

Can you find any of these flowers or trees in the school grounds?

Horse Chestnut

Sweet Chestnut

Sycamore

Silver birch

Oak

Beech

Foxgloves

Cow Parsley

Dandelion

## Vocabulary

**Root** - The part of a plant that grows underground.

**Flower** - the part of a plant that is often brightly coloured and grows at the end of the stem.

**Stem** - the thin, upright part of a plant on which the flowers and leaves grow.

**Leaf/leaves** - the part of a tree or plant that are flat, thin and usually green.

## What Plants Need to Grow
