

Digital Self Portraits: David Hockney

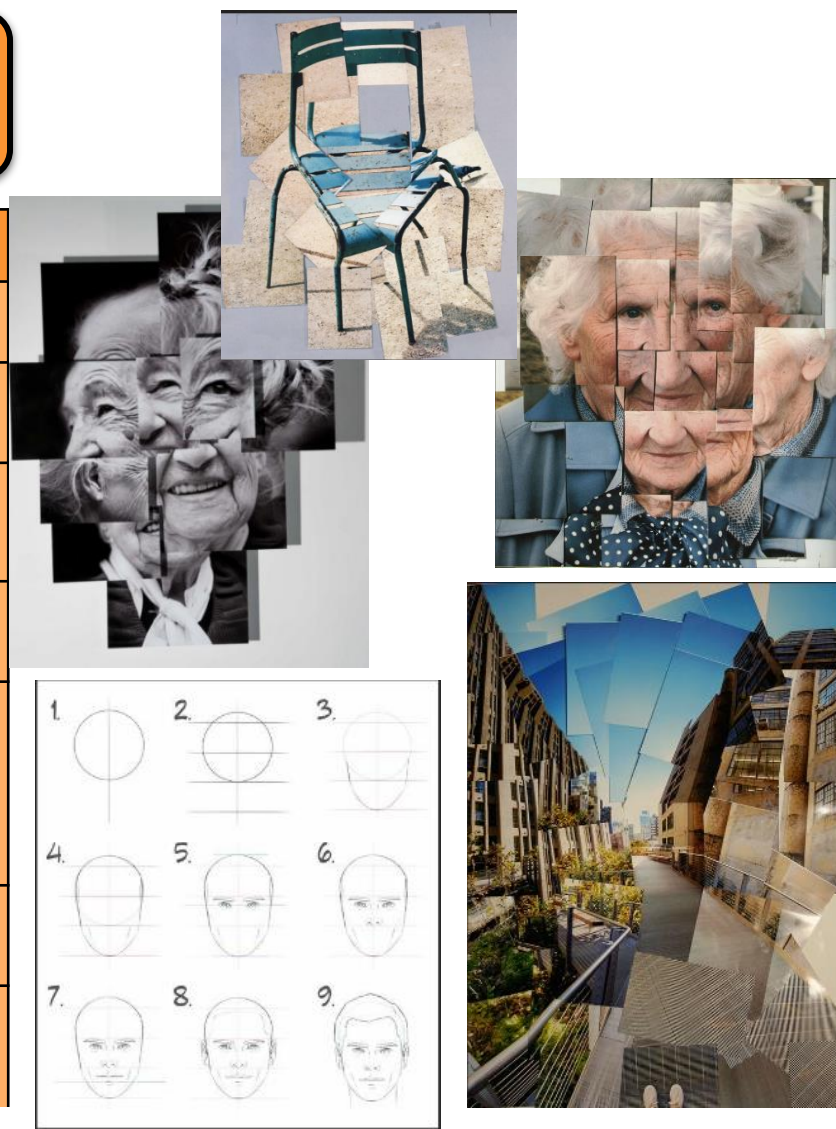

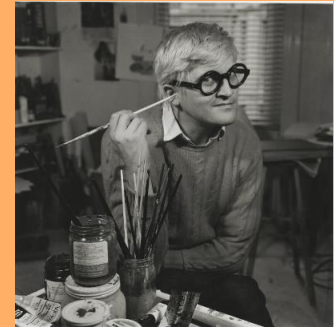

Be the BEST you can be

Famous Figures

David Hockney

Hockney was born in Bradford, Yorkshire in July 1937. He is an influential British artist associated with the Pop art movement.

Hockney has used paint, collage, photomontage and many more techniques and materials in his work. He has also used phones and tablets to create digital artworks. Although his art uses many different styles and materials, it is usually about people and places.

	Key Vocabulary
Tone	Light and dark to create a realistic image
Form	A choice of representing artwork
Abstract	Uses shapes and colours to create a representation of a picture
Media	Materials used to create a piece of art
Joiner Photography	Two or more separately taken images of a separate scene to create a larger one by physically overlapping them or digitally merging them
Mark Making	Different lines, patterns and textures using different media
Cubism	A style of art, which shows all the possible viewpoints of a person at once
